??? Money Screensaver - Animated Money Simulation!??? Customize your favorite money screensaver! Tune it up with 3D Animated Currency in a variety of different designs and with a wide variety of color combinations. You can choose from a thousand such combinations, but there's always a good one to get started with. As of right now, you have three modes: classic, underwater, and underwater with bubbles. *Classic* ??? Money Screensaver - Animated Money Simulation!??? This mode has very similar characteristics to the previous animated coins mode, except it uses dollars instead of playing cards. It has the following features: Use the scrolling bar to select the amount of money or bubbles you want. You can set it from \$1.00 to \$100,000.00 You can select how many times the screen will dance. You can set it from 1 to 12 times. A special currency sound file is used with this mode. There are many background color selections, red green black and white. *Underwater* ??? Money Screensaver - Animated Money Simulation!??? This mode is for someone who likes to see bubbles, water, or the classic vanilla coins. And of course it also includes the unique 3D animated money simulation. You can set the amount of bubbles and/or water from 0 to 100%. And you can change the color of the water and bubbles according to your preference. There are many background color selections, red green black and white. *Underwater with Bubbles* ??? Money Screensaver - Animated Money Simulation!??? This mode allows you to see both water and bubbles. You can select how many bubbles you want. And for the background, you can choose from four different colors. There are also a large number of different colored bubbles and water. You can also select whether you want more realistic money, or you simply want to add a little humor to your computer screen. You can change the speed of the animation from 0 to 100%. There are many background color selections, red green black and white. What's New in Version 2.5 *NEW*: 3D Animated Money Simulation Improved. Improved performance *NEW*: Underwater with BOOBLE Fixed a problem with changing the background. *NEW*: The 3D Animated Money Simulation now shows bubbles.
