It is a ground-breaking yet intuitive file sharing program that captures the spirit of the most effective file sharing sites around the web... A truly revolutionary program that you won't be ready for until you've seen it! Search for anything File sharing, Picasa, music, and video sharing is simple, intuitive and possible with the Nomad. You don't need to register, we believe that's what sets us apart from other programs. There are no limits, you can search and get any file on the web that you want, from a whole host of different sources including files on your computer and at the 'net that you can transfer to your hard drive if you wish. Never again will you need to search the "net" to see all the files you've downloaded from the web. Save and share as you wish Once you have completed a search, whether it be a file, photo, music, or video, you can save the result to your hard drive in virtually any format you want. You can even save folders at the same time! We believe in easy access to all the files you want to share. If you want to share more than just photos and audio files with the family and friends, then you will find the results are almost limitless. Always reliable Nomad boasts that it has the simplest interface of any file sharing program on the web, yet you never feel like you're being told to click this or that button, it's a nice balance. In addition to our innovative features, it is easy to use, we believe this is what sets Nomad apart from our competition. Nomad is easy to use, fast, and always reliable. Nomad is not perfect, and like everything, can and will have an occasional bug. If you notice that it isn't doing what it should, please contact our Support team. We pride ourselves on our support service.Senate Foreign Relations Committee members left the Capitol last week after the vote on the
